

**ENTRY FORM CMBF 2022**  
**ÖRV HSV Spielfeld**

---

I confirm

1. that my dog is in good health.
2. that my dog received the anti-rabies vaccination (vaccination certificate must be presented).
3. that my dog is covered by an indemnity insurance.
4. that I am held responsible for all damages (bit, accident, injury) which are caused by my dog.
5. my non-attendance does not release me from paying the entry fee.
6. that I read and accept the enclosed information and directives for participation.

The organizer reserves the right to refuse registrations in justified cases. The dog must be kept on a leash on the whole event and campsite area. My dog's excrements must be removed on the event area and the surrounding paths.

Breakfast:       Thursday       Friday       Saturday       Sunday       Monday

for ..... participants

We arrive with       Caravan /  Camper

**IMPORTANT INFORMATIONEN UND DIRECTIVES FOR PARTICIPATION**  
**ÖRV HSV Spielfeld – [www.hsv-spielfeld.at](http://www.hsv-spielfeld.at)**

In Austria, prong collars and shock collars are forbidden. The use of one these tools on the area, leads to the disqualification of the handler and to a criminal complaint. We appeal to a sportsmanlike and decent competition for the purpose of an appropriate training that is in line with animal welfare.

Permission to enter a trial:

On the day of testing, the dog must have met the required age limit according to the international testing standard (IGP 1.1.2019) and is required to have passed the IGP-BH to enter a trial.

There are no qualification criteria that must be met to participate in the CMBF. The trial level can be passed at the CMBF. The IBGH-contest applies the international testing standard (IGP 1.1.2019) and for the OB-Beginner-contest the current national testing standard. Both testing standards are to be found on our website. The scorebook must be presented on demand. The dog has to compete in the highest passed trial level or in the next level respectively.

Females in season are admissible to all testing contests on condition that they are kept separate from the other competitors. In phase A, they will run according to the time frame, but they compete at last in the obedience and protection phases.

Females in season must be reported to the organizers as early as possible so that the schedule can be adapted according to this. Females, who are visibly pregnant or who are nursing or who have puppies with them, are not permitted to enter a trial.

Sick and dogs suspect of contagious disease are excluded from all trail events.

A dog may only be shown in one section.

A dog handler may only participate with two dogs.

One dog may not participate in the BGH-contest and in the CMBF at the same time.

The participant must adhere to the instructions of the organizers and the judges.

Regulations can be found on our website and must be stuck to.
